BOMAN

Chi Alpha Campus Missionaries :: Ball State University :: September 2011

"I've been praying for this for twenty years!"

These were the first words out of his mouth as he approached our info table following the morning service. We had just shared with a church in Muncie the story of how God put together a full-time Chi Alpha team for Ball State. Little did we know, people in the community had been praying for decades that this would happen!

Moments later, a woman came up to us and said that one year ago, God gave her a burden to pray for this to happen. It was at that exact time that we began the process of transferring from Purdue to Ball State. **How exciting to see God coordinating people and resources to bring His plans about!** And how humbling to realize that part of God's answer to these prayers is to send our team to campus.

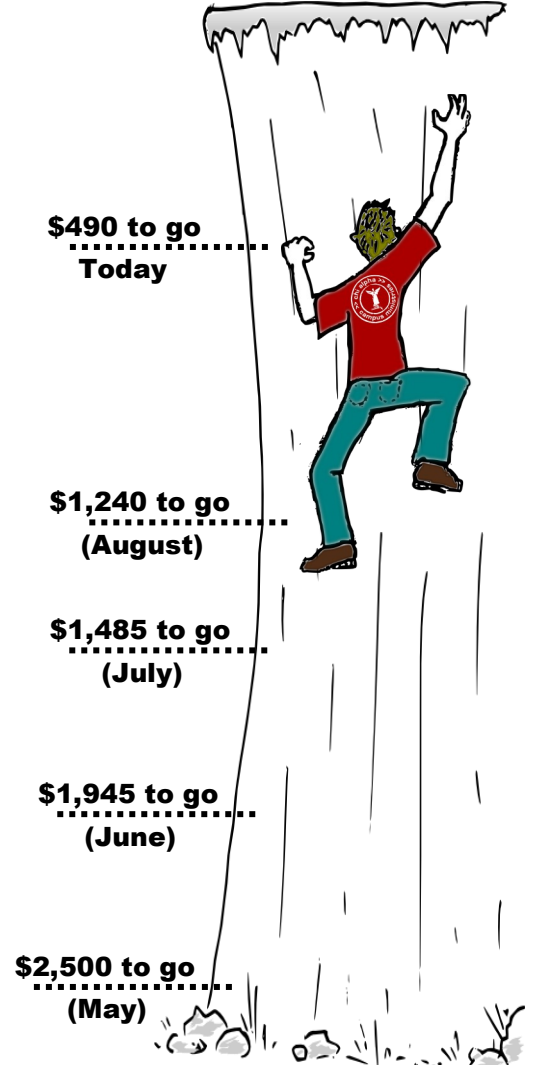

Throughout our travels this summer, God has laid one passage of Scripture on my heart more than any other. In Acts 17, we are told that God has determined the exact times and places that we would live so that we would reach out to Him and find Him, discovering that He is not far from each of us. I believe God has chosen this moment in time to do something fresh and powerful at Ball State, and that He has determined that you and I would live at this exact moment, at this exact time, in order that we may be part of it. God has hand-picked students to come to Ball State at this moment, so that they would reach out and discover His incredible love.

We can't wait to get started on campus and find out what God has in store. Who knows what other plans He is orchestrating at this very moment?

Only \$490 in monthly support is still needed before we can start work at Ball State University. Find out how to give at www.xaboman.com/contributions

FULL BUDGET

Johnny's Second B-Day

On August 31 our son, John, turned two. Thanks to everyone who sent him birthday notes and cards on his special day. He had a blast at the Muncie Children's Museum and got to ride his first bike!
